Embedding Activities into Canvas

- Embed links can be found in the Present tab for any activity type
- There are three types of embed links:
 - Response link
 - PollEv Page
 - Live results
- To embed an activity, use the HTML editor (<>) in an Announcement, Page or Assignment in Canvas
- Click Copy embed script from Poll Everywhere and paste this in the HTML editor and Save

Distance learning tips

Synchronous learning

- Make sure to “Share Desktop” when presenting your content live through video conferencing.
- Use live polling to increase audience engagement throughout the lecture

Distance learning tips

Asynchronous learning

- Use Surveys, “Shareable response link”, and embed activities in Canvas to gather feedback without having to activate the activity

Best practices

- Give instructions up front.
- Do a practice poll or icebreaker.
- Slow Down.
- Mix up poll types.
- Pause for Q&A.
